

MAGNUM FilterCord

MAGNUM XLF

Common-Mode DC Power Line Filtercord
for CB Radios and Mobile Electronics

Available p/n:
XLF-20C
XLF-20M

Noise and interference can come into your radio or other vehicle-installed electronics device through the DC power lines. The XLF-20 Common-Mode filter will effectively cancel or reduce this noise and interference.

- Stops Noise and RF Interference on DC Power Lines
- For use with Two-Way Radios, Mobile Amplifiers, Car Stereo Equipment and All Other Types of 12 Volt Electronics
- Rated up to 20 Amps
- No Voltage Loss Through Filter
- Provides Maximum Isolation
- Over 7 Feet of Cable
- XLF-20C comes with standard 3-prong connector (pictured)
- XLF-20M comes with 'molex' style 2-prong connector
